

DEVPAL SINGH ANAND

Data Analyst

+91 8108442099 | devpalsinghanand209@amityonline.com | linkedin.com/in/devpalsingh | github.com/devpalsingh

PROFESSIONAL SUMMARY

Results-driven Data Analyst with hands-on experience in data cleaning, preprocessing, exploratory data analysis (EDA), and statistical analysis. Proficient in Python (Pandas, NumPy, Matplotlib, Scikit-learn), SQL, and data visualization with a strong foundation in machine learning and predictive modeling. Currently pursuing MCA in Computer Science from Amrita Online with an excellent academic record (CGPA: 9.52). Completed professional certifications in data analytics from industry leaders including IBM and Cisco. Seeking Data Analyst roles to apply analytical skills and drive data-informed business decisions.

SKILLS

Data Analysis & Visualization: Python (Pandas, NumPy, Matplotlib), SQL, Excel (VLOOKUP, Pivot Tables), Tableau, Power BI

Statistical Analysis & Machine Learning: Exploratory Data Analysis (EDA), Hypothesis Testing, Predictive Modeling, Scikit-learn, Statistical Inference

Database Technologies: MySQL, PostgreSQL, SQL Server

Data Processing: ETL Processes, Data Preprocessing, Data Cleaning, Data Warehousing Concepts

Tools & Platforms: Tableau, Power BI, Jupyter Notebook, Git, GitHub, VS Code, Linux

Soft Skills: Analytical Thinking, Problem-solving, Communication, Cross-functional Collaboration, Presentation Skills, Documentation, Data Storytelling

EXPERIENCE

Data Analytics Intern — AcmeGrade.com

Aug 2023 – Nov 2023 | Virtual

- Collected, cleaned, and preprocessed large datasets from multiple sources for analysis
- Performed exploratory data analysis (EDA) and statistical analysis to identify trends and patterns
- Developed predictive models using Python, Pandas, NumPy, and Scikit-learn
- Created data visualizations and dashboards to present findings and insights to stakeholders
- Documented data analysis methodologies and results for future reference

Global Service Desk Trainee — NIIT Foundation

Sep 2023 – Nov 2023 | Online

- Collaborated with cross-functional teams to understand business requirements and resolve technical issues
- Implemented data validation processes to ensure data quality and accuracy
- Trained on ITIL framework and incident management methodologies
- Provided technical support and resolved incidents within SLA timeframes

- Analyzed security data to detect patterns and anomalies using data analysis techniques
- Documented security processes and methodologies for incident response
- Supported decision-making with data-driven insights from security monitoring

PROJECTS

PCAP Analyzer — Python, Scapy, Pandas

- Developed a tool to collect, clean, and analyze network packet data for pattern detection
- Implemented statistical analysis techniques to identify network anomalies

Data Analysis Tool — Python, Pandas, NumPy, Matplotlib

- Created a comprehensive data preprocessing and analysis tool for automated EDA
- Implemented automated data cleaning, validation, and interactive visualizations

PDF Toolkit — Python, PyPDF2, pdfminer

- Built utilities for extracting and processing data from PDF documents
- Implemented data transformation, cleaning, and automated document workflows

QR Code Toolkit — Python

- Developed tools for generating and decoding QR codes with data extraction for analysis

Image Analysis Toolkit — Python, OpenCV, PIL

- Built utilities for extracting and analyzing data from images with preprocessing techniques

Penetration Testing Tool — Python

- Developed automated security testing and data collection tools with visualization reports

EDUCATION

MCA – Computer Science — Amrita University Online

CGPA: 9.52

2024 – Present

BCA – Computer Science & Technology — Amity University, Noida

CGPA: 9.04

2021 – 2024

CERTIFICATIONS

- **Data Analytics in Python** — AcmeGrade.com (Nov 2023)
- **Data & AI Fundamentals / Cybersecurity Analyst Path** — IBM SkillsBuild (2023–2024)
- **Cybersecurity Essentials / Networking Fundamentals** — Cisco Networking Academy (2023–2024)
- **Global Service Desk 2.0** — NIIT Foundation (Nov 2023)
- **Cyber Ops** — NIIT (2024)

ACHIEVEMENTS

- **Academic Excellence:** Maintained CGPA of 9.04 in BCA and 9.52 in ongoing MCA
- **Technical Certification:** Completed IBM Data & AI Fundamentals certification
- **Project Development:** Created multiple Python-based data analysis tools for practical data processing
- **Cross-functional Collaboration:** Successfully collaborated with teams to resolve technical issues and deliver data-driven solutions
